

Creative Director: Ali Gold
Designer: Mustapha Barrie

Mustapha did a great job of following the tone I was shooting for with this website. We discussed several potential changes, the main idea being to simplify and clean up the existing ideas.

- 1) Eliminate the colored boxes for the background of the text and instead use the grey transparent boxes. Also, make the text size larger.
- 2) Instead of a linear timeline, just make two columns: one with the dates and one with the information.
- 3) Make the text size bigger so that it is easier to read and consider a more visually interesting font.
